

**Media Briefing – ACER LNG Price Assessment
19 Jan 2023**

On the record:

Commenting on ACER's LNG Price Assessment of 19 Jan '23, **Una Shortall, ACER Spokesperson**, said *"Today, sufficient market transactions were reported to calculate a single North West Europe (NWE) Spot LNG price. The Spot LNG price of 56.77 EUR/MWh relates to the North West zone. It is a meaningful representation of the price at which spot LNG Deliver ex ship (DES) was bought and sold in NWE."*

Background:

- For the terminals considered in each market area:
 - North-West Europe (NEW) comprises the regasification terminals in Belgium, France (except Fos Cavaou and Fos Tonkin), Germany, Lithuania, the Netherlands, Poland and Spain (only Mugardos and Bilbao)
 - South Europe (SE) comprises the regasification terminals in Croatia, France (Fos Cavaou and Fos Tonkin), Greece, Italy, Portugal and Spain (except Mugardos and Bilbao).
