

# **CALL FOR EXPRESSION OF INTEREST (NO DEADLINE) FOR THE TRAINEESHIP PROGRAMME IN THE EUROPEAN UNION AGENCY FOR THE COOPERATION OF ENERGY REGULATORS (ACER)**

**REFERENCE NUMBER: ACER/TRAINEE/2024/OC**

## **1. ABOUT THE AGENCY**

The European Union Agency for the Cooperation of Energy Regulators (hereinafter referred to as “ACER”) is a European Union (“EU”) body, legally established by Regulation (EU) No 2019/942<sup>1</sup> and operational since 2011. ACER is central to the integration and well-functioning of the EU's electricity and natural gas markets.

### **1.1 Our purpose**

Our overall purpose is achieving a transition of the European energy system in line with the political objectives set, reaping benefits of increased energy market integration across Europe, and securing low-carbon supply at least possible cost for European businesses and citizens.

The Agency promotes:

- A more competitive, integrated market, offering consumers more choice,
- An efficient energy infrastructure and network, enabling energy to move freely across borders, the integration of renewable sources, and therefore ensuring a higher degree of security of supply,
- A monitored and transparent energy market guaranteeing consumers fair prices and limitation of market abusive behaviours.

In this respect, ACER:

- Complements and coordinates the work of NRAs,
- Participates in the development of European network rules,
- Takes, under certain conditions, binding individual decisions on terms and conditions for access and operational security for cross-border infrastructure, on cross-border cost allocation for Projects of Common Interest and on terms and conditions or methodologies for the implementation of network codes,
- Gives advice on electricity and natural gas related issues to the European institutions,
- Monitors the internal markets in electricity and natural gas and reports on its findings,
- Monitors trading in wholesale energy products to detect and deter market abuse and ensure the integrity and transparency of EU wholesale energy markets in accordance with REMIT i.e., Regulation (EU) No 1227/2011.

### **1.2 ACER's evolving role**

ACER is on a significant growth trajectory, marked by an expanding number and array of tasks in the recent years. Our role as a collaborative agency within the framework of the EU's national energy regulatory authorities remains at the heart of our mission, complimented by a range of tasks that span various aspects of the EU energy system, encompassing monitoring of energy flows, wider system needs, and so much more.

ACER is currently at a critical point, playing a key role in advancing EU energy market integration and bolstering market integrity and transparency; efforts that strike us as more crucial than ever. Our goal is to contribute with our capacities, insights, and creativity as an EU energy regulatory agency to a transition of the energy system that is affordable, secure, and decarbonized – a transition that takes place at the pace set by leaders across the EU.

ACER has been entrusted with additional responsibilities under the "Clean Energy for all Europeans" legislative package, and is expecting new legislative packages to be adopted, focusing on key areas

such as Gas Decarbonisation, REMIT reform, and Electricity Market Design, aiming to bring transformative changes and further evolving the European energy landscape.

### 1.3 Who we are

ACER currently employs around 175 staff (statutory and non-statutory) and has an approved annual budget of € 32,602,073 in 2024. With the new responsibilities being assigned to its mandate, the Agency anticipates a significant growth in the forthcoming years, expecting more than 200 staff by 2025.

Our organisational structure comprises seven Departments: Coordination, Operations and Legal, Electricity, Energy system needs, Gas Hydrogen and Retail, Market Information and Transparency, Market Surveillance and Conduct, REMIT Investigation (as of 2025). An updated ACER organigram is [available on our website](#).

### 1.4 Our ongoing journey of progress

ACER offers a dynamic and motivating workplace, where diversity is celebrated and where people's commitment and achievements contribute to build an organisation that is better than the sum of its parts. We strive towards becoming an innovative and engaging workplace, by committing continuously to invest in learning and development opportunities and by focusing on all staff well-being and work-life balance.

We support a 'low on hierarchy, high on impact' organisational culture, prioritise personal relations and support an active constructive feedback culture, emphasising the positives whilst not shying away from addressing the negatives.

Looking ahead, as a growing Agency we recognise the importance of focusing on cross-organisational issues, encompassing both work practices and our broader work culture. We find this essential to maintain a cohesive, collegial work culture ("one ACER").

At ACER we believe in fostering a high-impact, high-performance type of environment, built on strong mutual trust, empowerment, personal responsibility, psychological safety, and teamwork at all levels.
